

Yanmar - Yanmar 4JH4-HTE 110hp Marine Diesel Engine Package

£ 6,995

Description

Yanmar 4JH4-HTE 110hp Four Cylinder Turbo Aftercooled Heat Exchanger Cooled Marine Diesel Engine With ZF30A 2.69:1 Gearbox, Deluxe Control Panel & Wiring Harness. A video of the engine can be viewed at the following link: <https://youtu.be/O3GcALffKhw> Very rare to see one of these 16 Valve 110hp units on the market. Built and sold in fairly small numbers and offering a massive amount of power in a small package. They also have the benefit of being an entirely mechanical engine so no ECU or engine management systems. This engine is extremely clean having come into us from a very large racing yacht as part exchange on a new engine during a planned complete refit of the vessel. The engine starts instantly from cold and pulls cleanly through the whole rev range. Oil pressure is good. The heat exchanger are in excellent condition and corrosion free. Running hours circa 1600 from new and having been in a yacht as opposed to a launch or powerboat, the engine has not been worked hard. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call our office on 01935 83876 for further information.
