

Yanmar - Yanmar 4JH5E 53hp Marine Diesel Engine Package (Very Low Hours)

£ 5,195

Description

Yanmar 4JH5E 53hp Four Cylinder Heat Exchanger Cooled Marine Diesel Engine With KM4A2 2.6:1 Gearbox, Deluxe Control Panel, Wiring Harness & Flex Mountings. Removed during a repower for a much larger 4JH80 Yanmar engine. Running hours reported as less than 400 from new although like many Yanmar engines, the digital hour counter has clouded over. Based on overall engine condition, the low hours are certainly believable and our workshops have removed the sump for an internal inspection where everything appeared essentially as new. A video of the engine running can be viewed at the following link: <https://www.youtube.com/watch?v=85B-QqRz2pk> These engines are always very sought after being the last generation of fully mechanical 4JH engines before the latest electronic common rail engines came in. The engine is so clean and original that it has been left in "as removed" cosmetic condition but has been serviced and can be painted at extra cost if required. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call our office for further details on 01935 83876

Sales status: available

Manufacturer: Yanmar

Model: Yanmar 4JH5E 53hp Marine Diesel Engine Package (Very Low Hours)

Year built: 2010
