

Nanni**£ 2,195****Description**

Nanni 2.50HE 10hp Marine Diesel Engine Package - Pair Available Nanni 2.50HE 10hp Twin Cylinder Heat Exchanger Cooled Marine Diesel Engine Package With TMC40 2:1 Gearbox, Control Panel, Wiring Loom & Engine Mountings. We have two of these units available, removed as part of a planned upgrade and in very good running order when removed. Only ever operated in fresh water so heat exchangers in good shape. Based on the well respected Kubota Z482 base engine, these are great little motors, very compact and light weight. These two units were fitted new in 2003 and have run approx. 2500hrs. In industrial applications these little Kubota engines are capable of 7000-8000hrs between major overhauls so plenty of seasons left in them yet. Tested in our workshops where they started instantly from cold with clean exhausts, good water flow and no faults observed whilst on test. Cleaned, painted and serviced, ready to be installed. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 01935 83876 for further details.
