

**Volvo - Volvo Penta D6-350A-B / DPH Sterndrive
 Marine Diesel Package**
£ 11,995

Description

Volvo Penta D6-350A-B 350hp 6 Cylinder Turbo Intercooled, Heat Exchanger Cooled Supercharged Marine Diesel Engine Package With Volvo Penta DPH Sterndrive, Transom Assembly, Full Instrumentation & Control Package. This unit has been removed from a professionally operated sportsboat to be replaced with a waterjet drive package for use in shallow water. It has a total of 8000hrs logged on the ECU but was fully rebuilt on a new longblock engine at just under 6000hrs. Fantastically well maintained and in excellent order with no leaks or weeps. Coolers regularly cleaned and serviced every 200hrs. We are advised that the sterndrive was replaced with a brand new unit approx. 3 years ago. Test run by our workshops and started on the button. Run up to temperature with oil pressure of 35psi when hot and engine at idle speed. Ideal as a replacement for a failed existing unit, or for a repower project wanting a more modern engine. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 01935 83876 for further details.
